## TELEGRAPHIC.

### CANADIAN.

#### Winnipeg Mayorality.

WINNIPEG 7.—Ald. Mulvey is in the field for the mayorality.

#### Acquitted.

WINNIPEG 7.—Vellie and McKittrick, charged with receiving forty thousand dollars stolen from the Union Bank, were acquitted today.

#### Killed at his Post.

KINGSTON 8.—The night watchman of the Grand Trunk freight sheds was knocked down by a locomotive last night and killed.

#### Gilroy Found Guilty.

WINNIPEG 9.—Michael Gilroy was found guilty yesterday of wounding Peter Jones with intent to kill. Sentence was deferred.

#### Must Pay Up.

QUEBEC 9.—Premier Mercier has notified the members of the Quebec Civil Service that they will be dismissed unless they pay their debt.

#### Acquitted.

WINNIPEG 8.—James Behan, who killed Gingras in the Board of Trade Saloon last July, has been acquitted on the charge of manslaughter.

#### Provincial Secretary of Ontario.

OTTAWA 12.—It is understood that W. D. Delfour, member for South Essex will succeed Mr. Hardy as provincial secretary in the Ontario cabinet.

#### Silver and Gold Mine at Port Arthur.

PORT ARTHUR 9.—A silver and gold bearing vein has been discovered in almost the centre of the town. The ore is of a fine formation and promises well.

#### Hacked her Husband to Death.

DRESDEN 9.—Mrs. Scott, of Dawn township, while laboring under temporary insanity, hacked her husband to death with an axe last night.

#### Member of the Ananias Club.

OTTAWA 13.—Wiggins the weather prophet was indignant today. He received by mail, notification of his election as an honorary member of the Ananias Club of Boston.

#### Disembowelled.

WINNIPEG 7.—A farmer named Leitch, of Lariviere, was disembowelled by a wagon turning over and falling on him when his horse was running away. He died a terrible death.

#### Manitoba Legislature.

WINNIPEG 7.—The members of the legislature are gathering for Thursday's meeting. A government caucus will be held tomorrow evening to consider the railway situation.

#### Nova Scotia Crops.

HALIFAX 13.—Nova Scotia crop reports say the yield of wheat, barley, oats and peas has been a good average; but all other crops are below the average owing to unfavorable weather.

#### Denies he is a Crook.

TORONTO 13.—Wm. Rowe, better known as "Paddy Rats", has issued against the Globe, an action for a \$1,000 damages for libel. He alleges that the "Globe" called him "a crook" and other bad names.

#### A Prominent Politician Dead.

PICTON 13.—Col. Ross, ex-M. P., died this morning. For the last 25 years Col. Ross has been a prominent figure in the County of Prince Edward, financially, socially and politically. He was in his 71st year.

#### Was he Drowned.

VICTORIA 12.—It is reported that one D. J. McLean, formerly of Moose Jaw, charged with being an opium and Chinese smuggler, was one of two men drowned in the sloop the other night while crossing to the other side with a cargo of opium and Chinese.

#### The Premier's Sister Ill.

KINGSTON 9.—Sir John and Lady Macdonald are here, called hither to the bedside of Miss Macdonald, sister of the Premier, who was suddenly attacked yesterday with heart disease. She has been a sufferer by this complaint for some years.

### After Many Years.

TORONTO 9.—Michael Dinwoodie, who disappeared from Toronto thirty years ago under circumstances which led to the belief that he had been murdered has turned up and is looking for his relatives. He has been among the mines of Central America and has made a large fortune.

### Nearly Poisoned.

TORONTO 9.—W. A. Werrill, barrister, narrowly escaped death by poisoning tonight. He took a dose of medicine in a drug store and shortly after became ill. The doctors administered antidotes and used a stomach pump, and after considerable skill succeeded in saving his life.

### The Manitoba Legislature.

WINNIPEG 9.—In the legislature, after the speech from the throne was delivered, Premier Greenway addressed the house for three hours, and moved for a Royal Commission to investigate the charges made against him. He made a bitter attack on the Free Press. The house adjourned till Monday.

### The Free Press Repudiated.

WINNIPEG 8.—The quarrel between the Free Press and the liberal party has reached a crisis. The liberal M. P. P. at a caucus that lasted till nearly morning, decided to stand by Greenway and Martin, after hearing statements from them and passed a resolution formally repudiating the Free Press as a liberal paper.

### The Manitoba Railway Case.

OTTAWA 12.—In the Manitoba vs C P R. appeal, which is down for hearing in the supreme court on the 21st, the former will be represented by Mr. Mowat, attorney general Martin, Dalton McCarthy and Mr. Gormully, they will have arrayed against them Hon. Ed. Blake, Christopher Robinson, Judge Clark, C. P. R. solicitor, and Mr. Aikens.

### The Mormons.

OTTAWA 12.—The Mormon delegates from the Northwest colony met Sir John on Saturday. In addition to asking for a townsite they want the post office and water privileges on Lees Creek as they propose to erect a sawmill. They also asked to be relieved from the payment of timber dues and seek the privilege of selling surplus stock brought in by them free, as settlers effects.

### Fisheries Treaty.

OTTAWA 13.—It is stated in well informed circles here that Mr. Chamberlain is entrusted by the Imperial government with secret instructions looking to a possible opening of negotiations for a new fisheries treaty before returning to England after his wedding. It is expected he will sound the republicans as to their views on the subject, in order to lay them before the Imperial government in person.

### The First Step.

OTTAWA 13.—The Dominion government has decided to formally request the government of Australia and New Zealand to send delegates to Ottawa duly authorized to enter into negotiations for the establishment of closer trade relations between these colonies and the Dominion, as well as to consider the practicability of a joint effort to lay telegraph cable between Vancouver and Australia.

### Manitoba's Legislature.

WINNIPEG 8.—The Manitoba legislature met yesterday afternoon at three. The session promises to be interesting. In the speech from the throne His Honor assigned the crisis in railway matters as a reason for recalling the house together. It was suggested that if the present uncertain state of affairs continues between the provincial and federal government in regard to the railway question that an appeal will be made to the Queen in council to have our rights under the British North America act clearly defined. No mention was made of retaliation upon the Canadian Pacific.

### The Royal Commission in Manitoba.

WINNIPEG 13.—The Royal Commission opened yesterday. The counsel for the Free Press and Call objected that the scope of the commission was too narrow and should deal with all the charges made in the alleged libellous articles. The objection was overruled by Judge Killam.

Norquay moved in the legislature last night for the extension of powers granted the commission, but this was rejected by

a vote of 3 to 2. Two conservatives voted with the liberal majority. In the house today the address in reply to the speech from throne is to be taken up. Goldsmith will move the address and Jerome second it.

### A Decey Letter That did not Work.

OTTAWA 9.—In the deacy letter recently sent the Minister of Customs from Detroit, Mich., the writer, points out that there are a large number of republican Orangemen in Michigan, and that if Bowell will secure him a letter from the grand master of Ontario expressing his wish for the election of Grover Cleveland, With such a letter, adds the writer, we can carry the State and be favorable to whatever treaty you (Canada) desire.

### AMERICAN.

#### A Fatal Election Rumpus.

LIVINGSTON, Ky., 8.—In the shooting affray on election day, five men were killed and one mortally wounded. Samuel Ward, a member of the Kentucky legislature was amongst the killed.

#### The Rochester Fire.

ROCHESTER, N. Y., 12.—It is estimated that the total deaths by the lantern works fire will reach thirty-five men and boys that were killed by jumping, and twenty-three still missing. Two of the injured will die.

#### Collision off New York.

NEW YORK 12.—The Cunard steamer "Umbria" collided with the Fabre steamer "Iberia" about four miles off Long Beach Hotel on Saturday afternoon. The Umbria was but slightly injured, but the Iberia is a total wreck. The Umbria took off the crew of the Iberia.

#### Steve Brodie Makes Another Jump.

POUGHKEEPSIE 10.—Steve Brodie jumped from the bridge in course of construction over the Hudson River here at six o'clock this morning. He broke three ribs and when he reached shore, blood was running from his mouth and ears. Brodie may die.

#### Double Murder and Suicide.

WINONA, Ill., 13.—The village is in a state of excitement over a double murder followed by the suicide of the assassin. The victims of the brutal assassin are Peter Howe, senior member of the banking firm of Howe and son and his wife. The former was aged 73 and the latter 69. The murder was committed by one Charles Burkhardt because of petty spite against the old people.

#### Congress.

WASHINGTON 9.—Late yesterday afternoon Mr. Edward McPherson said all the information received up to yesterday afternoon justified him in expressing the opinion that the next house will consist of 173 republicans and 52 democrats. There is a possibility that the republican majority may be reduced by later advices to 19 or 20; but he had made liberal allowances in his calculation for all democratic claims.

#### Disastrous Fire at Rochester.

ROCHESTER, N. Y., 10.—The most disastrous fire ever experienced in this city occurred last evening at the works of the Steam Gauge and Lantern Co. About 40 people were at work, mostly on the third floor. The smoke was very dense and the men could not reach the fire escapes and were forced to jump from the third storey. Fourteen jumped on the west side of the building and were frightfully mangled. Six of them died within an hour and four hours will die before morning.

#### Chicago Anarchists.

CHICAGO 12.—The first anniversary of the hanging of the Anarchists was observed by their Chicago sympathisers but within limits as the police regulations prevented any procession or flying of red bunting, and there was no outbreak of any kind. About 5,000 beings, men women and children gathered individually at the depot and two big trains carried them out to Waldheim cemetery. None of the persons who gained notoriety through connection with the Anarchist trial were present except Spies' sister, Gretchen, and the daughters of George Engel.

#### Six Little Babies.

DALLAS, Tex., 9.—Mrs. George Hirsch, of Navarro county, gave birth to six children on the afternoon of Saturday, Nov. 3. The mother and children are doing well

and the father is reasonably happy. A reporter who visited the homestead yesterday found about 100 people present, all examining the brood of babies. There are four boys and two girls. The father, George Hirsch, is 31 and his wife 27. They have been married five years, and have three children besides the recent accession. Hirsch is of German descent, and has named the quartet of boys Frederick, R. Q. Mills, Cleveland and Tourman Hirsch. The girls are Victoria and Louise. All are perfectly proportioned, but very small. The babies all seem small. The Hirsch family is poor but prolific, and the mother is a large, healthy woman. The babies are all tagged to preserve their identity.

#### A Terrible Explosion.

PITTSBURGH, Kan., 10.—A terrible explosion that broke the windows in this village and spread consternation among the inhabitants occurred at dusk last night, just as the men were preparing to quit work. The violence of the shock was so great as to hurl dishes from shelves and throw down chimneys.

Half an hour after the explosion, the villagers, who were preparing to go to the mines, were startled by a

#### RAAGED AND BLEEDING MAN

who almost staggered into the arms of the searchers. He said that shaft No. 2 at Frontenac, a mining suburb of this village, had been destroyed by an explosion and that all the men in the mine at the time except himself and a Dane whom he left bleeding at the mouth of the pit, were undoubtedly dead. In a few minutes, the villagers were hurrying through the fierce snow and sleet storm which was raging at the mouth of the mine the

TREMENDOUS FORCE OF THE EXPLOSION was apparent. There were huge seams in the earth, and the timbers of the hoisting apparatus were shattered and burned. Foul gases were escaping. There were one hundred and sixty men in the mine at the time of the explosion and as they were at work 112 feet below the surface, it is believed that not one

#### SURVIVED THE SHOCK.

as the explosion must have destroyed everything in the pit. Rescuing parties started down the shaft, but were forced to turn back owing to the foul air. Black damp is supposed to have caused the explosion.

#### FOREIGN.

#### A Victory for the Times.

EDINBURGH, 7.—Parnell's Scotch suit against the Times was dismissed, as the court decided that it had no jurisdiction.

#### Governor of Newfoundland.

LONDON 8.—Sir Terence O'Brien, governor of Heligoland, will succeed Blake as governor of Newfoundland.

#### The Czar Injured.

LONDON 8.—Private advices from St. Petersburg say that the Czar was injured in several places in the recent accident to his train and is suffering considerably.

#### Mr. Chamberlain Coming for his Bride.

LONDON 7.—Hon. Joseph Chamberlain has left for United States to marry Miss Endicott, daughter of the Secretary of War.

#### London Socialists.

LONDON 12.—Three thousand socialists met in Hyde Park yesterday to observe the anniversary of the execution of the Chicago anarchists and to denounce the suppression of free speech in Trafalgar Square.

#### Lord Sackville's Recall.

LONDON 7.—The correspondence in the Sackville West case was brought down in the Imperial Parliament yesterday. Mr. Bayard bases his claim for recall not upon the Murchison letter, but upon the newspaper interview which Sackville granted.

#### Both Crews Drowned.

HAVRE 10.—The Cunard line steamer "Nantes" came into collision sixty six miles off the Lizard with the German ship "Theodore Ruge" from Hamburg, and both vessels sank. Both crews were drowned.

#### Uproar at a Gladstonian Reception.

LONDON 12.—Mr. Gladstone was driven from Birmingham to Wolverhampton yesterday in a carriage drawn by four horses. He was cheered enthusiastically along the route. When he arrived at Wolverhampton he received addresses presented to him

in the drill hall. Here the uproar was so great that he was compelled to abruptly close his reply to the addresses.

#### Fierce Fighting in the Soudan.

CAIRO 10.—Seventy thousand followers of the Mahdi attacked the town of Wadai. The garrison repulsed the assailants and killed three thousand, but the Mahdists reattacked and captured the town. The Sultan of Wadai has fled the town.

#### Chief of the London Police Resigns.

LONDON 13.—In the common yesterday the official announcement was made of the resignation of General Warren, commissioner of the metropolitan police, owing to strictures made on the force for inability to arrest the Whitechapel murderers.

#### Gladstone Still Sanguine.

LONDON 9.—Gladstone, replying to an address presented to him today by the nationalists of Birmingham, said the cause of the Irish was no longer dependent on the life of party. It had been taken up by the liberal party, which had never failed of a successful issue when it espoused a great cause.

#### England will be Ready.

LONDON 10.—The procession yesterday on the occasion of the induction into office of the Lord Mayor, was devoid of the usual pageantry and a tame affair generally. Lord Salisbury spoke at Guild Hall in the evening. He said, if any complaint against Washington statement did not involve two nations, the Washington statement had not apparently commended themselves to the approval of the Americans.

In regard to the peace of Europe it appeared that all of the rulers had an earnest and intense desire to maintain peace year after year. They saw larger armaments and vaster services for defensive purposes and if the process were continued, where would it end. He had heard on good authority that five great powers maintained 12,000,000 armed men. He did not suggest that ought to diminish the confidence of the public in the maintenance of peace, but he thought that amid such preparation, the English Government must not remain unready.

#### Jack the Ripper.

LONDON 9.—The body of a woman has been found murdered and mutilated in a house on Dorset street, near Hanbury street. The murder was committed in the woman's own room, and the body was cut up in a horrible manner. This is undoubtedly a repetition of the series of woman murders in Whitechapel. Bloodhounds have been brought to the spot and are working on the trail of the murderer. The victim was like the rest of the Whitechapel victims—an abandoned woman. She had a husband who was a porter but she lived with him only at times. The appearance of the remains is frightful, and the mutilation even greater than the previous cases. The head was severed from the body and placed between one of the arms. The ears and the nose were cut off, the body disembowelled, and the flesh torn from the thighs. The womb and other organs are missing. The forehead and cheeks are completely skinned, and one hand pushed into the stomach.

#### St. Andrew's (English) Church, Gleichen.

At a vestry meeting held on Saturday evening, the treasurer reported that the total receipts since Easter amounted to \$135.99 and the expenditure to \$129.21, leaving a clear balance of \$6.78. The expenditure includes \$46.00 for a bell. The harvest thanksgiving services will be held on Sunday next at eleven and seven o'clock. The second anniversary of the opening of the church will be held on St. Andrew's Day, Nov. 30th. It will take the form of a special service in the church, which will be followed by a sacred concert.

#### The Mormons.

OTTAWA 9.—A Northwest correspondent writing to an official of the Interior department states that F. W. Lyman and John W. Taylor, two of the twelve apostles of the Mormon church, have completed the organization of a church in the vicinity of Lethbridge. The Anarcho priesthood has been conferred on A. M. Stenhouse, ex-M. P., for Comox, B. C. The Mormons agree not to practice polygamy in Canada.

## Ranch Cards.

**RANCHERS** will serve their best interests by inserting their cards with stock brands in these columns. For ten dollars we will publish a ranch card with one cut for a year and send the advertiser the WEEKLY HERALD for the same time. For each cut of an animal more than one, we charge three dollars a year. All advertisers in these columns have the privilege of advertising lost or strayed animals at any time, free of charge.

## THE COUNCIL.

The regular meeting of the town council was held in the council chamber at 8 o'clock, Wednesday night. Present Mayor Shelton and all the councillors except Councillor Linton.

A letter was read from H. Collins, treasurer of the Protestant School Board asking that a payment out of the taxes collected this year, be made to the board. It was resolved that an order be drawn on the treasurer for the sum of \$500 in favour of the school board.

A letter was received from Mr. T. Ede, complaining of the high rates of license charged by the council to theatrical troupes visiting the town, preventing many companies from giving entertainments in the town, thus entailing great loss to the town. He suggested a schedule of rates which he thought should not be exceeded.

A letter was read from Mr. J. A. Walker in which he charged that the Eau Claire Lumber Company had been advised of what the price was at which he (Mr. Walker) had offered to furnish lumber for sidewalks, so that the former could underbid Mr. Walker. Also that spruce lumber was being accepted by the council instead of Douglas Fir as asked for in the original notice for tenders for lumber last April; and further that he did not wish to pay taxes to support

## YANKEE SPECULATORS.

The committee on public works denied positively that they had in any way let the Eau Claire Company know Mr. Walker's figures or any other in fact that did not know themselves, as none of the offers were opened till all offers were received. The chairman of public works asked leave to reply, but it was resolved that the letter be filed.

It was moved by Orr and Douglass, that the clerk be instructed to write the Minister of Railways re the closing up of all the streets crossing the C.P.R. on section 16. A discussion arose on this as to the powers of the minister in such matters. Extracts were read from the Monetary Times showing that the minister had made rulings in the matter of railway crossings and must possess the necessary power. The Motion was carried.

Councillor Collins moved that the committee on public works should bring in a report of all the money expended on public works and what they intended to spend as it was not expedient that they should spend such large sums of money without the authority of the council. His bad memory was refreshed by the fact that the money being spent was authorized and itemized in the by-law voted by the people also that all the money spent was reported at each meeting of the council passed by him as chairman of finance and voted correct by the council. His motion was lost.

Councillor Collins moved that the public works be instructed to change the 6 foot side walk on McTavish street at the intersection of Northcote Avenue from the east side to the west side, putting it along the vacant lots owned by Mr. W. T. Ramsay, to Reineck avenue on which Councillor Collins' residence stands. The motion was lost.

During the discussion on this motion some

## LIVELY TALK TOOK PLACE.

when Councillor Orr stated that there was a larger population north and east of McTavish street that have no walk to get up town than west of McTavish street, since the walk has been built on Scarth street. Councillor Collins said it might do for Councillor Orr to talk such twaddle, but that he knew better. Councillor Orr asked the mayor to call Councillor Collins to order.

The mayor said the words used were not in order. Councillor Orr said the people of Calgary know who is right. When stated by the chairman of public works that it was provided in the original report of the committee that a walk should be laid down in front of Hodder's terrace. Coun. Collins said that was trumped up now because he had brought up the matter. Douglas, McCallum and Orr stated on their honor that it was in their plan, made on the 31st of August, which they would produce. Councillor Collins held that his opinion was more reliable than their statement.

Councillor Collins opposed building a sidewalk from the police office to Cary's boarding house as unnecessary. It was moved by Douglas and Allan that the public works prepare a report of the work done by them and proposed to be done out of the appropriations made in the by-law for \$12,000. Carried.

An account of Messrs. Braden & Baillie for advertising the Calgary civic holiday, which with a similar account of the Herald was thrown out by Councillor Collins at last meeting, was again brought up, causing quite a lively discussion. Councillor Collins denounced the press of Calgary as clubbing together for boodle and whacking up on the spoils; also censuring the mayor for exceeding his powers in calling and advertising the civic holiday. The mayor defended his action, saying he had acted in compliance with a requisition

signed by a large number of ratepayers. He quoted precedents in Winnipeg and other places.

Douglas and Orr advocated the payment of these accounts, but believed with Councillor Allan in curtailing printing expenses in the future. The account in dispute was finally handed to Councillor Orr to be measured and reported on as to whether it comes within the contract rate which the council has with the printing firms of the town as to rates.

Mr. John Field appeared before the council to make a complaint against the chief of police for interference with the quietude of his private residence on Tuesday evening. His Worship informed Mr. Field that the proper course for him to pursue would be to formulate his charge in writing and hand it to the police committee, who would investigate the same. This Mr. Field agreed to do.

Councillor Orr asked leave to procure the necessary lumber and other material for the construction of a porch over the main door of the police office, the police agreeing to do the work, and to procure storm sashes for the two lower windows. This was agreed to without formal resolutions.

Councillor Douglas addressed the council in reference to the expiring contract with the Electric Light Company, but no definite action was taken.

## The Annual School Meeting.

The annual school meeting which took place in the school house at ten a. m. Tuesday and was adjourned till two p. m., met again at that hour. There was a large attendance of rate payers and much interest was taken in the proceedings.

Mr. A. D. Rankin, auditor, read his report, in which he said he found the accounts of the last year all correct.

The treasurer's report was read in detail by the treasurer, Mr. H. Collins.

The secretary's report was read by Mr. A. Lucas, and an address was delivered by the chairman, Mr. James Riley.

Mr. R. A. Jones moved the reception and adoption of the reports, which was carried.

A ballot was taken for the election of a trustee to fill the place of the retiring one. Mr. H. Collins was re-elected by a majority of the whole of the votes cast.

The Chairman announced the intention of the trustees to add a fourth teacher to the staff as soon as the funds will permit.

Mr. James A. Loughheed called attention to the fact that the Ottawa Government had at the time of laying out section 16, set apart 2 blocks for school purposes, which Mr. Loughheed stated are now worth \$6,000 or 8,000 and urged that steps be taken to obtain a title for the same.

Mr. Collins explained that the board had been looking after the matter. On motion of Mr. Jones seconded by Councillor Allan, it was decided that a synopsis of the reports should be published. The meeting then adjourned.

## School Accounts.

The Herald has been forwarded the following for publication:—

Treasurer's statement and auditor's report of the Protestant Public School No. 19.

|   |            |
|---|------------|
| Amount of money collected from all sources..... | \$6,282.74 |
| Bal. in Bank as per last audit..                | \$ 388.49  |
| Grants from N. W. Government                    | 1,446.15   |
| Judgement from Lafferty & Smith interest.....   | 538.75     |
| Taxes from district.....                        | 3,310.34   |
|   | \$6,282.84 |

## DISBURSEMENTS.

|  |             |
|--|-------------|
| Teachers salaries.....   | 2,245.00    |
| Paid first debenture due 10th of May, 1888.....                                | 1,013.33    |

WEDNESDAY, NOVEMBER 14, 1888.

## "EATEN OUT."

Some of our United States contemporaries in their anxiety to secure the throwing open of the Alberta grazing grounds to American cattle, are trying to convince the Dominion government that there is no fear of our ranges being "eaten out" if they are thrown open to the Americans, and they even deny that the overcrowding in the ranching states has resulted in the eating out, and consequently permanent destruction of some of the best grazing districts across the lines. Unfortunately for the contention of our American contemporaries our live stock exchanges for this week as usual, contain abundant information showing that the evil of overcrowding on the ranges in the ranching states has resulted as we said it did. We find that cattle are being driven from the over-crowded ranges by the thousands and that owing to the scarcity of good pasture, ranchers in many districts are in danger of losing their cattle this winter. We append a few sample paragraphs.

Denver, (Colorado), "Field and Farm." A. M. Pryor, this week engaged in moving by rail 3,000 head of range cattle from Cucharas range to pasture near Panhandle City, Texas. Grass is nipping short down in Huerfano county this fall.

Edson, (New Mexico), "Range." The Red River company has relieved its Colfax county range of 1,000 head of cattle, which were shipped to the company's Gila range.

Fort Collins, (Colorado), "Courier." The round up is in our midst. The boys report grass on the range very short. We are informed that Messrs A. W. Haygood and Thos. McGee are gathering their cattle and will take them north where feed is better.

Wilcox, (Arizona), "Stockman." The Sierra Bonita land and Stock company have rounded up about a thousand head of cattle, and on Wednesday started to drive them to the Salt River valley, near Phoenix, where they will be fattened on alfalfa before being sent to market.

Tascosa, (Texas), "Pioneer." Another shipment of XII cattle was made on Wednesday of this week, this time from Farwell. There were four trains, numbering 1,440 head, and going like those of last week to the Sugar pasture in the Indian Territory.

N. W. "Live Stock Journal." Considerable complaint comes from some Utah cattlemen about the numerous herds of sheep which are devastating their ranges and making it almost an impossibility to successfully winter even half the stock now on their ranges.

Las Vegas (New Mexico), "Stock Grower." Fifty thousand New Mexico steers will be sent north next season, to be matured upon the luxuriant grasses of Montana and British America. Necessity compels in this instance. Our ranges must be relieved, and the northern outlet seems to be the most favorable one at present.

As to the last paragraph, there is probably some mistake, as the present quarantine regulations and customs duties protect Alberta from anything like a heavy inroad of American cattle. It is probably a case of the wish being father of the thought.

How ridiculous, however, for a paper of the standing of the Miles City Stock Grower's Journal, in the face of such proofs as given above, to state "We are by no means aware of our ranges being 'eaten out'!"

## SHOW LICENSES.

Some members of the Town Council appear to take a decidedly wrong view of the question of show licenses. They think that theatrical companies which show here should be compelled to pay the highest license authorized, under all circumstances. We can understand that those who are opposed to all theatrical entertainments on principle, would insist upon the highest tax being enforced; but it is difficult to believe that such people really exist in this Nineteenth Century.

We cannot, however, understand the contention that a license or heavy tax should be imposed upon shows, because they take so much money out of the town. It can be very easily seen that this license after all comes out of the

pockets of the people. If a heavy license is imposed, a high price of admission will be charged, or an inferior performance given. More likely, however, companies will be frightened away from Calgary, altogether, for although our town is acquiring a good reputation as a patron of amusements, or "show town," there is very little or no money for dramatic companies, here yet, for the expenses of coming here are so heavy. Take the People's Theatre Company, at present playing at the Royal Opera House for instance. They have done a splendid business during the week; but when railway fares, hotel bills, hall rent, orchestra and artiste's salaries, advertising, etc., are taken into consideration, it will be at once evident that the company will not take much money out of Calgary in return for the rare amount of amusement and edification they have afforded our people. The man would be worse than a miser, who would grudge the artists of the company some remuneration for their efforts to amuse the people.

It will be some time before dramatic companies will make a great deal of money by coming to Calgary, and until this time comes the license should be made as low as possible. It should be the object of the Mayor, who really should have discretion in this matter, as have the mayors of New York, Montreal and other large cities, to encourage as much as possible, the right kind of companies to come to Calgary. Men of mind, the world over, now recognize the stage as the greatest and most successful popular educating agency of the day; the press alone excepted. Calgary should not be a couple of centuries behind the rest of the world.

## THE MUNICIPAL ELECTIONS.

It is to be hoped that the municipal voters will weigh well the respective merits of the candidates for honors at the approaching elections, before pledging their votes. The town is undoubtedly entering upon an important epoch in its career, just graduating from its swaddling clothes, as it were. Calgary at this particular crisis wants the best men it is possible to obtain at the helm of municipal government, for a false move just now if it would not actually mean immediate ruin, would be liable to impede the progress of the town to an extent which might dwarf its growth for ever.

Under the circumstances, voters cannot afford to allow their personal friendship to dictate as to their duties at the polls. Neither can they afford to perpetuate sectional strife at the expense of Calgary's best interests. We must have done with dead issues, and devote our best energies to the live, practical issues of the present and the future.

Let all classes unite to return the very best men it is possible to induce to accept the responsibilities of public office, irrespective of party or personal grievances. The members of the council should be men of energy, capacity and honesty. They should also be men of standing in the community, for a new town such as Calgary is, is judged by the outside world by the standard of its chosen representatives. We have got to impress the outside world if we want to go ahead as we ought.

When the time comes, elect the men who will be a credit to the town and an honor to those who have elected them. In the meantime abstain from rash promises, and by careful thought, decide which of the candidates promise best service for the town. Then work for them and secure their election.

## OUR NEIGHBORS' POLITICS AND OURS.

There was a good deal of resemblance between the position taken by the two great parties in the recent election in the United States and the policies of the two great Canadian political parties. The defeated democrats, like the repeatedly defeated liberals in Canada, wanted the people, on the strength of mere theories, to abandon a policy which had made the country what it is, and the people refused to take the blind jump required of them. Our contemporary, the Montana Live Stock Journal tersely described the situation, on the eve of the elections, in this way:—

"The theories held by the Republican party are those which have been for many years in force and of which we know the practicability and have experienced the result. The country is, therefore, safe in proceeding with a continuance of them. But for those of the Democrats we can not say as much. They have been much talked of, reasoned with delicate accuracy and prognosticated with magnificent pictures, but we have not had a trial of them. If we are not to undergo an experimental application of them, the result will be watched with an eagerness never paralleled before. If successful, a continuance of the power of the Democracy is assured, [but if unsuccessful, the end of that party will be at hand and its dissolution will be without resurrection.]"

Substitute the word "Conservative" for "Republican", in this quotation, and "liberal" for "Democrat" and you have a singularly true description of the political situation in Canada.

## BRITAIN'S IMPORTATIONS OF BUTTER.

The imports of butter into the United Kingdom during September were 134,591 cwt, against 119,291 cwt for the same month of 1887. France supplying 44,246 cwt against 28,438; Denmark 41,970 cwt; against 32,269 cwt; Sweden 17,255 cwt, not 12,044 cwt; and Holland 16,096 cwt, against 15,729 cwt. The last named country also contributed 87,931 cwt of oleomargarine against 110,302 cwt out of a total import of that article of 97,318 cwt, as compared with 127,786 cwt for September 1887. The quantity of cheese received from Canada was 102,369 cwt, against 81,344 cwt., the quantity received via the Atlantic ports of the United States was 78,083 cwt., against 77,364 cwt.; and Holland furnished 34,137 cwt, against 33,431 cwt, out of a total of 222,462 cwt. imported, against 200,423 cwt for the same month of last year.

It is satisfactory to note that the exports of Canadian cheese have increased about 20 per cent., while those of the United States have stood still; but it is not strange that neither country has exported a pound of butter.

With the facilities for shipping provided by the C.P.R., we should be able to ship to Britain not only cheese, but butter, and tons of it.

## THE PUBLIC BUILDINGS CONTRACT.

The contract for the erection of the court house and offices in connection with it in Calgary, has been let by the Ottawa Government to Mr. John G. McCallum of Calgary. It is Mr. McCallum's intention to proceed at once with the necessary work as rapidly as material can be obtained. There is a significant fact connected with the letting of this contract, which gives direct contradiction to the oft repeated statement that the Tory Government never give contracts except to their friends and supporters, no matter what the cost or loss to the country. Mr. McCallum is a life-long liberal. Take this in connection with the news, only a few days old, that Sir John had placed two baristers who had been life-long political opponents, on the High Court of Justice of Ontario, and a good idea can be formed of the absurdity of the charge that the government always discriminates in favor of its partisans.

The town and the government we feel sure will lose nothing by Mr. McCallum receiving the contract for building the court house. He has "grit" enough about him to push the work to completion in a manner that will be satisfactory to the government and a credit to the town.

## OVERSTOCKING THE U. S. RANGES.

The Los Vegas (New Mexico), Stock Grower publishes the following:—

"The old way of trusting to providence to turn a mild winter was all right when the country was not stocked so heavily and there was grass for stock; but things have changed and the 'cup-board is bare.' Suppose it does cost \$10 in feed to winter a \$20 cow? Is there not money in the scheme? A system must be adopted whereby the ranges will be ridden thoroughly all during the winter and spring, and when a weak animal is found it must be brought to shelter and enough feed given it to keep life. This looks like 'eastern farm style.' The death rate must be kept down or nature will settle the overstocking question of itself by starving down the herds until they fit the range and grass supply."

Wonder if the "Stock Growers' Journal" is still "by no means aware of our ranges being eaten out?"

## THINGS WORTH KNOWING.

Manchester, the birth place of the doctrines of the Cobden Club, has established a society for the establishment of commercial union between the colonies and the mother country. In the words of one of its founders, the union has been formed to agitate for such a readjustment of fiscal arrangements as shall prevent the products of foreign states from unfairly competing with those of British labor in British markets, while paving the way to such a commercial federation of Great Britain with the colonies by means of preferential customs duties, as may secure the nearest approach to free trade within the empire as may be compatible with the exigencies of the respective independent governments constituting the

## Federation.

Such a federation as this would greatly benefit Canada by giving Canadian raw products a preference of five to ten per cent duty as against Americans. To wit: would cause the area of wheat culture alone to advance by leaps and bounds, while her vast resources of salt, petroleum etc., would find in India alone an immense outlet.

The North Borneo Company, has only been established about three years, yet it has already established two lines of steamers, one to Hong Kong the other to Singapore. Now both these ports are merely transshipping ports for Europe or China and India for the products of North Borneo mainly for Europe. Vancouver is a better port than either for the European trade. What are we about that this island, an island larger than the whole of France, should be left out of our trade routes altogether. There are coal mines there. It is one of our coal stations for the fleet and is almost in the direct line of route to China. The Chinese fleet from Vancouver should take it in.

## PHONO

## ALL SORTS OF THINGS.

Ranchers still express their gratification at the splendid outlook for winter grazing. The prairie fire season is about over and although there were one or two big fires there was no general destruction of winter grass. There has been no rain to wash the nutritious particles out of the grass, and Alberta has the best crop of naturally cured feed that she has had since the first cattle were driven in.

His Honor, Lieutenant Governor Royal, has already made himself exceedingly popular among the representatives of the people of the Northwest Territories assembled at Regina. He has also gained the admiration of the people by his frankness and ability as manifested in his speech from the throne. This utterance will go on record as a type of official candour. The people feel that they are in touch with the new Lieutenant Governor already.

While the American live stock men are keeping the question of cattle quarantine along the frontier before the attention of the Dominion Government would it not be a good time to urge the advisability of establishing a quarantine against American horses at the line? It is notorious, that whole herds of horses across the lines are affected with disease and it is a fact, of which horse owners are beginning to complain, that diseased horses are being brought into Alberta. Our horse industry is as important as our cattle one, and equally entitled to protection.

In the course of his lecture in the Calgary Town Hall last August, Professor Goldwin Smith made the statement that the death knell of protection had tolled in the United States; because the Democratic party had committed itself to a reduction of customs duties. The people of the United States, however, appear to think that they know more about the requirements of their own country than do the leaders of the Democratic party and for the espousal of these gentlemen of the anti-protection cause, their candidates have been signally defeated in the great elections, and the vote of the party reduced all along the line. The Democrats may be expected to profit by the lesson and to have nothing more to do with the policy of tinkering with the tariff. In the meantime the tolling of that knell is postponed indefinitely. Another commercial unionists prophecy has failed to connect, and we again ring our chestnut bell.

## THE ASSEMBLY.

REGINA, Nov. 5.—My letter today, like this afternoon's session, must necessarily be short. The business of the session of fifteen minutes was not extensive or elaborate. When Mr. Speaker called for petitions Mr. Cayley rose and presented a prayer from settlers of the Calgary district for a bridge over the Bow. The petition was signed by 300 residents. It is now in the hands of the Board of Advisers.

I learn from the members that there will be no fight over the address in reply to the speech from the throne, which will be made a mere formal affair. The all-important question of responsible government being held in reserve to be made the subject of a powerful resolution later on. The committee to draft the address, as appointed today, are Messrs. Cayley, Ross, Tweed, Hoey, Plaxton and Neff.

The ladies of the Northwest are on the eve of an important victory. Today by a unanimous vote the committee on Municipal Law resolved to recommend to the Assembly that unmarried women and widows owning property shall in future

## be granted votes in municipal elections.

REGINA, Nov. 8.—Today's session was brief, but a considerable amount of work was pushed through. A petition from Alameda settlers near the boundary line in Eastern Assiniboia, prayed for compensation for the destruction of horses affected with glanders. Several other petitions were presented by Eastern Assiniboian members, asking for grants to roads, ditches and ferries. All were referred to the Board of Advisers.

The legal experts submitted their opinion in connection with the Mitchell case. In substance it is that the power of dealing with the election of its own members is inherent in the Assembly, a decision which met with universal approbation. The petition to unseat Mr. Mitchell is now in the hands of the Privileges and Elections committee.

The reply to the speech was reported by Mr. Cayley from the special committee and passed through committee of the whole. Below I send a copy:—

## May it please Your Honor:

We, the members of the first Legislative Assembly of the Northwest Territories, heartily congratulate Your Honor on your having come amongst us at this time as the representative of Her Majesty. Your Honor's career in the past affords us the happiest anticipations as to the discharge, as a constitutional Governor, of your high duties.

We thank your Honor for the intimation you have given us that in your mind the present Assembly is to be considered as a progressive step towards

## FULL RESPONSIBLE GOVERNMENT.

It is our earnest hope and desire that our present powers will, before next session, be so far extended as to give us the full measure of responsible government, which we believe the country desires. Represented as the Territories now are fully and completely we feel that the recommendation we may submit on the subject will be favorably entertained by the Dominion Government.

We believe that the revision and consolidation of the Ordinances which your Commission has accomplished and which it will be our duty to embody in legislation will be of great service to the Territories, and will call for our most conscientious efforts.

The matter of the present legislation in regard to prairie fires is one which has engaged the attention of the old N. W. C. and will necessarily engage us. The annual loss to the Territories from fire is exceedingly large, and it is with regret that we observe that the provisions of the past have proved insufficient. It is our opinion that Dominion legislation on this subject for the

## PROTECTION OF THE PRAIRIE

against sparks from locomotives is to be desired. We cordially recognize the assistance of the police in the past in the suppression of prairie fires, and believe their services might become even more effective by special arrangements which might be made to that end, which arrangements the Assembly proposes to recommend.

We are glad that a bill on vital statistics will be submitted, believing that much good will arise therefrom, and in the direction pointed out by your Honor.

We heartily concur with your Honor in admiration at the success of the Northwest in agricultural pursuits. It agrurs a happy progression on their part towards self support, which must be a matter of universal congratulation.

The resources of the country, the magnificence of the crops and the large immigration which have attracted so much attention throughout the Dominion during the past year have, we understand, led to the formation this year of standing committees on agriculture and immigration. These committees, we are glad to learn, will have your Honor's hearty co-operation in the important subjects with which they have to deal. We earnestly hope your Honor will see fit to make an appropriation for the establishment of immigration agencies and for agricultural purposes.

## CAUSE OF TEMPERANCE

is one which we are glad to learn your Honor proposes to deal with. It is one which the laws of the Territories do not at present deal satisfactorily with. Any resolution or representation to the Honorable the Privy Council at Ottawa which your Assembly may feel called upon to make, it is our earnest desire, be framed with a view to the temporal and moral interests of the community.

We will be grateful for the statement of the receipts and expenditure of the general revenue fund which your Honor has graciously promised to lay before us, as well as for the Territorial estimates for 1889.

It is our earnest hope that our efforts as a legislature will be under Providence, to the development and well-being of the people of these Territories.

We thank your Honor in conclusion for your gracious message.

On Mr. Cayley's motion he, with Messrs. Haultain and Tweed, was delegated to carry the address to His Honor.

## THE REVISED ORDINANCES

are now being slowly ground through the

committees. Today on Mr. Haultain's report from the judicial committee, the several chapters were distributed among the committees, the lions share going to the judicial. The Agricultural and Municipal committees also received their quota and it is expected some of the Ordinances will shortly be reported to the Assembly.

A question put by Mr. Tweed elicited the information from Mr. Sutherland, of the Advisory Board, that on Thursday the estimates will be laid before the house.

REGINA, Wednesday 7.—Several visitors from Moose Jaw, Broadview, Calgary and Wolsely, who are in town as delegates to a temperance convention being held here, attended the Assembly Chamber today, only to have their curiosity gratified by seeing Mr. Speaker call the Assembly to order and almost immediately dismiss them. Rev. Mr. Betts is here from Calgary, Rev. Messrs. Nichols and Ridd from Broadview, Hunt from Moose Jaw, Andrews from Qu'Appelle, and about a dozen lay delegates.

The legislative business put through today was unimportant. Mr. Justice Richardson moved to have the journals of yesterday's proceedings amended by the expunging of the motion stating that the opinion of the experts as to the Assembly's power to deal with the Mitchell case be referred to the committee on Privileges and Elections. The words were struck out.

On the motion of Messrs. Betts and the member for Whitewood, the personnel of the educational committee was increased by the addition of the names of Messrs. Neff and Mitchell.

There being no business to bring before the House, it was moved by Mr. Justice Richardson and seconded by Mr. Cayley, that the Assembly adjourn until Monday next, which was carried. This will enable the committees to catch up and prepare work for the Assembly.

The committees are sitting in the court house, where the legal experts can be called on for advice or assistance between the hours of 10 and 12 each morning. In the municipal committee on Tuesday a wise amendment to the ordinance was suggested by Mr. Tweed. In substance it proposes to limit the borrowing powers of town councils and rural municipalities, stipulating a certain percentage (not yet fixed) of the assessed value of the municipality, beyond which amount the corporation shall not borrow. This, if passed, will effectively prevent any such state of affairs such as Portage la Prairie and Emerson are still smarting under.

In presenting their report on the consolidation of the Northwest Ordinances to the Assembly the commissioners reported: "That the report herewith submitted is composed of 62 chapters, comprising all the public ordinances at present in force, and connected therewith is a proposed draft of an ordinance for declaring the effect of the revised ordinances whether adopted in their present form or amended by the Legislative Assembly.

"That in the proposed revision and consolidation of the ordinances it has been the aim of the undersigned, in accordance with Your Honor's instructions, to establish, in so far as possible, a uniform phraseology, and make their several provisions clear and precise.

"That while they have not adhered strictly in detail to the instructions of Your Honor, as originally given them, they have endeavored to keep within the lines of those variations suggested by them and approved by Your Honor in the several personal interviews Your Honor has permitted.

"That in some of the ordinances, more particularly the municipal ordinance, it was found necessary to introduce a few alterations, which the undersigned will hold themselves in readiness to point out whenever called upon to do so, with a statement of their reasons for such changes. The undersigned being content to say here generally, that in their opinion the alterations suggested are in most cases only made for the purpose of giving expression to what was conceived to be the original intention of the N. W. Council.

"That in the proposed school ordinance, the alterations from the existing ordinance are only those submitted by the board of education, whose recommendation is enclosed for Your Honor's consideration.

"That in the proposed ordinance respecting juries, the changes suggested are in detail only, but as there appears to be a consist of power in the N. W. T. act regard to juries, in that now submitted, it is proposed that its coming into force be subject to the repeal of sections 71 and 78 of that act, which His Excellency the Governor-General is empowered to do by proclamation."

Mr. Ross, of Moose Jaw, who is an active worker on committees, says that in all probability the assembly will take important steps in the matter of immigration to the Territories.

Lieutenant Governor Royal gave his first state dinner Tuesday at Government house. The following gentlemen only were invited:

Mr. Justice Richardson, Mr. Justice Macleod, Mr. Justice Rouleau, Mr. Speak-

er Wilson, Messrs. Haultain, Jell, Mitchell and Sutherland, members of the advisory board, Mr. N. F. Davin, Mr. Cotton and Mr. Ross, Moose Jaw.

## TERRITORIAL.

At a meeting held at the house of Mr. Watson of Pine Creek, on Friday Oct. 19th, the following gentlemen were elected for the first vestry of St. Paul's Church, Fish Creek, in the diocese of Calgary:—Mr. A. G. Woolley Dodd, Minister's Warden; Mr. A. Winterbottom, Parish Warden; Messrs. Cornish, LeCrane and C. Moore, Stewards. Mr. A. Woolley Dodd was elected lay delegate to the diocesan synod.

The meeting was a long one, and much business was done. Amongst other things, resolutions were passed arranging for the immediate erection of sheds for horses, according to plans prepared and presented to the vestry by Messrs. Child & Wilson of Calgary, also for the fencing in of so much of the land as will secure the church, graves and sheds from damage.

### Kesekanises.

EDMONTON 9.—George Godin, alias Kesekanises, the outlaw, was captured by Indians last night while in hiding on Stony Plain. Some companions surprised him and bound him with ropes and he is now in the custody of the mounted police here.

### Another Railway Scheme for Calgary.

OTTAWA, 10.—Application will be made to incorporate the Red Deer Valley Company, to build a line from Cheadle station on the C. P. R., northeast to Red Deer valley coal fields, with the privilege of extending it to Calgary from any point on the line.

### Harvest Thanksgiving.

On Sunday, Nov. 18th, at three o'clock in the afternoon, there will be a harvest thanksgiving service at St. Paul's Church, Fish Creek. The sermon will be preached by the Rev. J. W. Fims, missionary to the Blackfeet, and incumbent of St. Andrews' Church, Glenora. The collection will be on behalf of the Calgary diocesan mission fund.

Presents of wheat, oats, roots etc., will be gladly received at the church vestry on Saturday Nov. 17th for church decoration.

### Mormon Delegates at Ottawa.

OTTAWA, 10.—The Mormon delegates from Lee's Creek waited on Mr. Dewdney today. The interview lasted 3 hours; but it is understood that the question of polygamy has not been discussed. Tomorrow the Mormons meet Sir John and are confident of securing a town site. They are also seeking postal facilities.

It is understood that the views of Mr. Dewdney regarding the advisability of extending the industrial school system to the Northwest and British Columbia will be carried out.

### Notes From Regina.

Mrs. Dewdney has returned to Ottawa.—Major McGibbon, Messrs. Caruthers and Ed. Martin arrived here on their trip of inspection of Indian agencies on Saturday afternoon last. They expect to go westward shortly.—Mr. Fairchild, Inspector of the C. P. R. experimental farms, is in town collecting samples for the C. P. R. exhibition cars. He reports the Northwest samples far ahead of Manitoba this year. A committee of the Board of Trade is assisting him in procuring samples in this vicinity, and he promises that the exhibits from each district will be kept separate and carefully labeled.—The Journal.

### Excitement at Edmonton.

EDMONTON 8.—The town is in a fever of excitement over the shooting of a policeman named Thomas Cairney, by a woman named Nell Webb, who keeps a house of ill fame in town. Cairney and a couple of companions named Rogers and — came up on Wednesday from Fort Saskatchewan, intending to go to Calgary next day. Towards evening they started in to paint the town red, winding up at the house of "Big Nell." She refused them admittance and locked and chained the door. Cairney and his companions then kicked the panels in, when "Nell" fired through the broken panel, the bullet entering Cairney's hip. Cairney was carried away by the town patrol up to the office of lawyer Cameron and medical assistance procured. "Nell" was arrested and tried before the officers of the police on Thursday, when she was committed to appear for trial before the supreme court next May. In the meantime two constables named Watson and Casault were placed on guard at her house. During Friday night a couple of young fellows from town went to the house, made the guards drunk, took their arms and cartridges from them and did about as they pleased. Casault's arms were returned by the man who had them, but Watson's were worn down town by the other sport but were taken from him by the police. On Saturday the guards were tried before Supt. Griesbach, and Watson, who acknowledged being drunk, was sentenced to two months imprisonment and is to be dismissed from the service. Casault was let off. Cairney's wound is serious and if he recovers is likely to be a cripple for life.

## Midnapore News.

MIDNAPORE 7.—A shed about sixty feet long is being erected at the church here, so that the horses of those attending divine service may be sheltered from the cold winds while waiting.

Threshing in this neighborhood is still in full swing, although there are four machines at work all the time. The grain is in splendid condition, a yield of seventy bushels of oats to the acre being by no means uncommon. There are also some splendid samples of wheat.

A wagon loaded with hay, broke down in the Fish Creek coulee last Friday morning, completely blocking the road for several hours, while assistance was being procured. Light rigs managed to use the steep bank alongside, but it was a serious inconvenience to those who had loaded wagons, showing the necessity of grading the approaches to the creek. The late John Glen had commenced the work on the proper road allowance, but his sudden death stopped the work. The coulees drain the water from the high lands; but, as roads, except in fine weather, are bad. After rain they are almost impassable and in winter are blocked with snow.

MIDNAPORE 7.—The annual meeting of the ratepayers of the Midnapore school district was held on Tuesday evening.

S. W. Shaw, the retiring trustee, was re-elected, and E. D. White appointed auditor to examine the accounts.

The value of the assessable property in the district is \$125,700. The rate made for the year 1887 was one mill in the dollar, for the year just expired two mills, one mill being for current expenses, the other to pay off debenture indebtedness. The amount received and due on account of taxes 1887 is \$128 72 On account of taxes 1888..... 251 40 Proceeds of debentures..... 598 50 978 62

The accounts paid out or due school expenses for all purposes in excess of government grant for 7 months, ending Oct. 31, 1888..... \$ 31 32 For 12 months, ending Oct. 31 1888..... 121 74 Erection of school building and accessories..... 613 10 766 16 Excess of assets over all liabilities up to Oct. 31 1888..... 212 46 978 62

The number of pupils on the register is fifteen. The school was open 98 days during the winter term and 125 days during the summer term. T. W. T.

## THE RANCH.

### English Cavalry Horses.

The Rules of the English government for guidance in purchasing cavalry horses bring out a number of points of great value to farmers:

Reject a horse whose forelegs are not straight. They will not stand near. Stand behind the horse when he walks away from you, and you will be able to notice these defects, if they exist.

Reject a horse that is light below the knee, especially if immediately below the knee; the conformation is essentially weak.

Or a horse with long or short, or upright pasterns; long pasterns are subject to sprains; short or upright pasterns make a horse unpleasant to ride and on account of extra concussion are apt to cause ossific deposits.

Or a horse with toes turned in or out. The twist generally occurs at the fetlock. Toes turned out are more objectionable than toes turned in. When toes turn out the fetlocks are generally turned in, and animals so formed are very apt to cut or brush. Both, however, are weak formations.

Reject a horse whose hind legs are too far behind, good propelling power will be wanting, and disease as a result may be expected in the hocks. And a horse which goes either very wide or very close behind. And one with very straight or very bent hocks; the former cause undue concussion; the latter are apt to give way.

Reject a horse that is "split up"—that is, shows much daylight between his thighs; propelling power comes from behind, and must be deficient in horses without due muscular development between the thighs.

Reject a horse with flat or over large feet, or with very small feet, medium size are the best.

Also a horse with one foot smaller than another.

### A Visitor on our Ranchers.

Capt. Wise, A. D. C., has returned to the city on his way East from the Pacific, he went South from Calgary to visit the ranching country. The Captain expresses himself as delighted with what he saw. He was greatly pleased with the Stimson, Barter and Macpherson horse

ranches. The owners of the Barter ranch are Leicestershire capitalists, who are going in for horse raising for the English market. The stock is magnificent, including four thoroughbred and three three-quarter bred stallions, as well as a number of imported mares. Aeristic, who won the Ascot gold cup in 1884, is on this ranch. Pedigree horses for carriage and saddle purposes as well as cavalry remounts will be shipped to England.—Ottawa Journal.

### Two strange Diseases.

The Sierra Valley Leader says that a strange disease is raging in that neighborhood among the cattle. It is estimated that 200 have gone blind within the last month. There is a disease among the horses in the northern portion of the valley, which effects them similar to the epizotic. Only a few have died as yet, Jerad Bates lost a fine breed mare worth \$250 last week.

### N. W. Cattle in a Smashup.

OTTAWA 9.—A freight train laden with Northwest cattle broke in two near Pembroke on Saturday night. The rear section plunged into the front section, derailing four cars and killing brakeman Tidlock and ten cattle.

## THE MINE.

### The Star and Planet Mine.

Mr. Geo. Henderson, of Nicola, reports satisfactory progress at the Star and Planet mines, taking out the ore, which is rapidly increasing in richness. The new stamp mill is working nicely, and in connection with two concentrators they are reducing 50 tons of rock and 10 tons of concentrates per week, all of which is shipped to San Francisco. The mine is one of the best paying in the province, considering the capital invested.—Columbian.

### Mountain Mines.

As an indication that men of means are looking favorably toward Porcupine creek as a field for investment, the sale of an interest in the Discovery claim is proof. A. Cameron, who has had charge of the construction of government roads in the country south of Golden, is the purchaser, and Tom Horn the seller. The consideration was \$500, and the interest one-fourth of 1,000 feet.

Thomas Tretheway or Field, passed through on Thursday on his way to Vancouver. He goes to sell the Mogul claim, an extension of the Monarch mine. The same company that is now opening up the Monarch is the purchaser, and for a consideration of \$5,000, it is said.—Donald Truth.

## FOR PRESIDENT.

NEW YORK, 7 9 p. m.—The following are the latest election returns:—Alabama, Cleveland 10, Arkansas 7; California, Harrison 8, Colorado 3, Connecticut not in yet; Delaware, Cleveland 3, Florida 4, Georgia 12; Illinois, Harrison 22; Indiana not in; Iowa, Harrison 12, Kansas 9; Kentucky, Cleveland 13, Louisiana 8; Maine, Harrison 6; Maryland, Cleveland 8; Massachusetts, Harrison 14, Michigan 13, Minnesota 7; Mississippi, Cleveland 6, Missouri 16; Nebraska, Harrison 5, Nevada 3, New Hampshire 4; New Jersey, Cleveland 9; New York, Harrison 36; North Carolina, Cleveland 11; Ohio, Harrison 23, Oregon 3, Pennsylvania 30, Rhode Island 4; South Carolina, Cleveland 9, Tennessee 12, Texas 13; Vermont, Harrison 4; Virginia, Cleveland 12, West Virginia 6; Wisconsin, Harrison 11. Total, Cleveland 162, Harrison 218.

Doubtful Indiana 15; Connecticut 6. The latter States are probably democratic and increases Cleveland's vote to 183.

NEW YORK, 7, 10:30 p. m.—New York complete returns give Harrison 15,720 plurality, Connecticut is democrat by 150, West Virginia will probably be a complete republican victory. New Jersey is democratic by 1900, California republican by 5,000, Illinois republican 35,000, Wisconsin 21,000 republican.

HARRISON'S ELECTION IS CONCEDED by the New York Democrat papers.

NEW YORK 8, noon.—The presidential election returns are not yet complete but sufficient are in to make Harrison's victory certain. Cleveland and Thurman admit defeat this morning. New York state was responsible for the defeat of the democrats. When all the returns are in it will give Harrison at least ten thousand majority. In New York city Cleveland had nearly sixty thousand plurality, but the state more than wiped it out. California was a big surprise. It will give a good democratic majority. Illinois went for Harrison and so did Massachusetts, the latter piling up 30,000 plurality.

INDIANA gave Cleveland 2,500 plurality and New Jersey about 7000. Michigan, Ohio, Pennsylvania and Wisconsin show large republican gains. The republicans claim they will have majorities in both houses of congress.

This morning Chairman Quay, of the Republican National Committee, author-

ized the following statement:—

"The republican party has carried by increased majorities, all the States that were carried by Blaine in 1884 and in addition have New York and still hope to win Indiana, when returns are all in."

In an interview today

CLEVELAND TALKED FREELY about the returns and the increased republication vote, but expressed not the slightest regret in the world at any action taken during his administration. He is willing to admit that his position on the tariff and the decided stand he took in favor of a revenue reduction may have lost him many votes; but maintains that if it were to do over again he would follow the dictates of his convictions.

The bitterest pill the president has to swallow is the

PARTISAN ACTION OF REPUBLICANS whom he kept in office and who voted and worked against him with all their power. Their deportment toward the administration is a source of great disappointment to him. He concludes that he is defeated. No man ever took defeat more philosophically.

Judge Thurman said that so far as he himself was concerned he cared nothing for the defeat of the democratic candidates. He much regretted the defeat of the party, however.

## COURT OF REVISION.

Only Five Names Added to the Voter's List.

The final meeting of the court of revision took place at the council chamber last night. Mayor Shelton was in the chair. All the members of the council were present except Councillor McCallum. The solicitor, E. P. Davis, was present to give his advice on legal points which might arise.

Notice had been given by some twenty eight persons that they wanted for various reasons to have their names put on the voter's list. The court passed a resolution that no name could be added to the voter's list unless it appeared on the assessment roll. This decision, though evidently necessary to prevent fraudulent votes being allowed, cut off some that it would appear in equity should be allowed to vote. The work of the court was reduced practically to correcting a few mistakes in names that were assessed but not put on the voter's list. There were only five names added and none taken off. The names added were Charles Flint, Angus Fraser, Edward King, J. P. Jephson and Councillor Allan.

The court of revision was then closed, but the members continued to sit in their capacity as a council, when the question of amendments to the Northwest Ordinances was taken up. The Mayor had received a draft of the amendments proposed by the legal experts of the legislative assembly now sitting at Regina. These were discussed at some length and further amendments and alterations proposed, all of which the solicitor was instructed to forward to H. S. Cayley, M. L. A., at Regina, to be, with the consent of the assembly, incorporated in the consolidated statutes of the Northwest.

The council next took up the report of the committee on public works, giving a detailed account of the money expended by them on public works out of the appropriations made in the by-law for \$12,000, carried by a vote of the people on the 28th of July. The report covered items down to eight o'clock on Saturday night, also the amount proposed to be spent on sidewalks and the places they were to be placed. The gross amount voted was \$4,400.00. The amount spent and proposed to be spent which will give the town a pretty complete system of sidewalks, shows a balance left on hand of about \$300. The report was adopted without any amendments being proposed.

## BORDER.

BESANT.

well, to shorten the story, we got no news at all, and could never discover, for many years, what had become of the boy. When four years had passed by without a word or line from him, Mathew grew horribly afraid, because Ralph's one and twentieth birthday drew near, and he thought the time was come when the heir would appear and claim his own. What preparations he made to receive him I know not. Perhaps a blunderbuss and a cup of poison. But the day passed, and there was no sign of Ralph. Then, indeed, Mathew became quite certain that he would no more be disturbed and that the mill was his own.

As for myself, I sat at home chiefly with my grandmother who was now beginning to grow old, yet brisk and notable still. There was a great deal to be done, and the days pass swiftly to industrious hands yet not one so busy and not one so swift but I could find time to think and to pray for Ralph.

Still the fagelman kept up my heart, and Sailor Nan swore, as if she was still captain of the foretop, that he would come home safe. I was young, happily and youth is the time for hope. And about the end of the sixth year I had cause to think about other things, because my own misfortunes began.

I had long observed in the letters of my dear parents a certain difference, which constantly caused doubt and questioning; for my mother exhorted me continually, in every letter, to the practice of frugality, thrift, simple living and the acquisition of housewifely knowledge and, in short, all those virtues which especially adorn the condition of poverty. She also never failed to bid me reflect upon the uncertainty of human affairs and the instability of fortune, and every letter furnished examples of rich and noble and great ladies reduced to beg their bread. My grandmother bade me lay these things to heart, and I perceived that she was disturbed and she would have written to my father to ask if things were going ill, but for two reasons. The first was that she could neither read nor write, those arts not having been taught her in her childhood, and I testify that she was none the worse for want of them; but her natural shrewdness even increased, because she had to depend upon herself, and could not still be running to a book for guidance. The second reason was that the letters of my father, both to her and to myself, were full of glorious anticipation and confidence. Yes, while my mother wrote in sadness she wrote in triumph, when she bade me learn to scour pots he commanded me to study the fashions, when she prophesied disaster he proclaimed good fortune. Thus he ordered that I was to be taught whatever could be learned in so remote a town as Warkeworth, and that especial care was to be taken in my carriage and demeanor, begging my grandmother to observe the deportment of Mrs. Carnaby, and to bid me copy her as an example. For, he said, a city heiress not uncommonly married with a gentleman of good family, though impoverished fortunes; that some city heiresses had of late married noblemen, that as he had no son, nor any other child but myself, I would inherit the whole of his vast fortune (I thought how I could give it all to Ralph), and, therefore, I must study how to maintain myself in the position which I should shortly occupy. He desired me especially to pay very particular attention not to seem quite rustic and country bred, and to remember that the common speech of Northumberland would raise a laugh in London. With much more to the same effect.

I say not that my father wrote all this in a single letter, but in several, so that all these things became implanted in my mind, and both my grandmother and myself were, in spite of my mother's letters, firmly persuaded that we were already very rich and considerable people, and that my father was a merchant of the greatest renown—already a common councilman, and shortly to be alderman, sheriff and lord mayor—in the city of London. This belief was also held by our neighbors and friends, and it gave my grandmother, who was, besides, a lady of dignified manners, more consideration than she would otherwise have obtained, with the title of madam, which was surely due to the mother of so great and successful a man.

TO BE CONTINUED.

### HORSES LOST

Strayed from T. Chamberlain's, Stoney Creek, the following horses:—1 Black Mare with Buckskin coloring; 1 Bay Mare, blaze on nose, four white feet, white spot on belly, brand P on right shoulder; 1 Bay Gelding, star on forehead, four white feet, brand P on right shoulder; 1 Roan Filley blaze on nose, brand P on right shoulder; 1 White Roan Gelding, brand A on right shoulder. All branded J.P. in centre of diamond on right shoulder. I will give a reward of \$20, either at the ranch or at Fair & Co.'s stable, Calgary, to any person finding same.

## FOR PRESIDENT.

New York, 7.—The indications are that Harrison has carried every Northern State but New Jersey and possibly Connecticut and will be the next president. If this is the case the vote in the Electoral College will be Harrison 218, Cleveland 162.

According to estimates made at three o'clock this morning the next Congress will be Republican by 25 majority.

It will be some time before the final result is known of the presidential contest. New York, Indiana, Connecticut are all close and the result doubtful, especially in the two latter.

The following states have been carried by the

### REPUBLICANS:—

|                    |    |
|--------------------|----|
| Colorado.....      | 3  |
| Illinois.....      | 22 |
| Iowa.....          | 13 |
| Kansas.....        | 9  |
| Maine.....         | 6  |
| Massachusetts..... | 14 |
| Michigan.....      | 13 |
| Minnesota.....     | 7  |
| Nebraska.....      | 5  |
| Nevada.....        | 3  |
| New Hampshire..... | 4  |
| Ohio.....          | 23 |
| Oregon.....        | 3  |
| Pennsylvania.....  | 30 |
| Rhode Island.....  | 4  |
| Vermont.....       | 4  |
| Wisconsin.....     | 11 |

Total.....174

### THE DEMOCRATS

count safely on the following:—

|                     |    |
|---------------------|----|
| Alabama.....        | 10 |
| Arkansas.....       | 7  |
| Delaware.....       | 3  |
| Florida.....        | 4  |
| Georgia.....        | 13 |
| Kentucky.....       | 12 |
| Louisiana.....      | 8  |
| Maryland.....       | 8  |
| Mississippi.....    | 9  |

| New Jersey.....     | 9  |
| North Carolina..... | 11 |
| South Carolina..... | 9  |
| Tennessee.....      | 12 |
| Texas.....          | 13 |
| Virginia.....       | 12 |

Total.....156

The following states are classed as

### DOUBTFUL:—

|                    |    |
|--------------------|----|
| California.....    | 8  |
| Connecticut.....   | 6  |
| Indiana.....       | 15 |
| New York.....      | 56 |
| West Virginia..... | 6  |

Total.....71

If New York goes republican, Harrison will be elected by nine votes.

CLEVELAND REQUIRES NEW YORK, and Indiana or New York or Connecticut, and either California or West Virginia to win.

### HARRISON'S ELECTION ASSURED.

NEW YORK, 4 p. m.—The latest despatches indicate that the election of Harrison is assured beyond a question. The corrected returns received from the counties in the state so far, increase Harrison's plurality to 40,000.

Despatches from INDIANA point to republican gains. Whatever doubt was raised by reports that Illinois has gone democratic was dissipated by later despatches from Chicago, which say that the republican electoral ticket has a plurality of not less than 20,000.

In Connecticut the vote is so close that an official count may be necessary to decide the contest. Such has been the case in that State several times before. INDIANAPOLIS, 3 p. m.—Both parties claim Indiana. The Republicans say that the State is theirs by a small plurality; but returns up to early this morning seemed to indicate that the democrats had won by a very small vote. At seven o'clock this morning, however, the indications seemed to favor a republican success and at this hour the prospects for the republicans winning the State are growing brighter.

THE VOTE LATEST. NEW YORK, 5 p. m.—Returns from all parts of the country confirm the election of the republican national ticket. Illinois is now the single hope of the democrats; but latest returns make it safe for the republicans. Owing to the slow counting system and remoteness of some districts, reliable and final returns from Indiana, California, West Virginia and Illinois are not yet had. Indiana is claimed by both sides. The probability is it will give a small democratic majority. The latest despatch from West Virginia says the state has gone republican by a small majority. California is probably safe for the republicans. Returns from all over the country point to republican gains in representatives.

## CORRESPONDENCE.

### Changing Places at School.

To the Editor of the HERALD.  
SIR,—Will the trustees explain why the excellent plan of changing places in classes according to merit is now discontinued. Formerly you heard now and again a smart boy or girl on arriving home from school, exclaim:—"I'm at the head of my class!" (always a bit of bright news for a parent;) but this seems now to be a thing of the past, and many of the children apparently lose much interest in preparing their lessons. To any teacher who has a real interest in the improvement and advancement of the young, under his or her charge, the plan referred to must be of great assistance, not only in the teaching, as it is a great stimulant and creates a feeling of emulation among the children, but also in the saving of many frowns and threats etc., which may be

thereby unnecessary. Will you, Mr. Editor, kindly give this place in the HERALD, and thus bring the matter under the notice of the trustees, who it is to be hoped will at once renew the good old plan and thereby promote the interests of the school and oblige. A PARENT.

Councillor Collins and the Printers, To be Editor of the HERALD.

SIR,—I see by Thursday evening's issue of the Tribune that they have deserted all the leading political questions of the day such as the presidential elections, the sitting of the Northwest Council etc., and turned the phrase of their wrath on the devoted head of one of the present council, I mean the chairman of finance. The other members of that committee being low of stature, the high head carried by the editor of that paper would not allow him to see them, therefore they miss the imputation that has been thrown at the chairman. Now, Mr. Editor, the great trouble with that gentleman is that a very large bill has been run in the Tribune office for printing, some of which has never been ordered. One item in particular, the proclamation of a civic holiday, put in by His Worship, amounted in the two papers to the sum of almost \$51. The committee unanimously agreed that we could not recommend the payment and the council adopted our report without a dissenting voice, hence the kick. However, I mean to show the ratepayers that what I have said at the council is correct, that the printers are really in it on in the way of high price. A by-law had to be printed in the summer, and I went by instructions of the council to both papers and asked for prices. The first one while open for the job would prefer the other office to get it. I went there and met the working editor of that sheet, who looked over my manuscript, and the first question he asked was to enquire if I was going to put it in both or in one paper. I said one. Then he remarked, my price is twelve cents per line for the first insertion and eight cents per line for subsequent insertions. If you give it to both, we will do it for eight cents per first and six cents per subsequent insertions.

What other conclusions could I come to than that the balance would be divided by them. In the next place he calls his account a just one. After his past actions I think the committee is justified in questioning this account and if the committee struck it off, the council by unanimous vote adopted the report. He calls me "not a true westerner." If his ideal of a true westerner means a man in a public capacity who will stand by and fold his hands while unprincipled men rob the public, cheat them, I am not a "true westerner;" but I might just here say that I lived in the west when he followed his mother in his bib and tucker.

The editor of the Tribune would lead us to believe that printers are hard working men. I do not wish to be understood in any other light than to look on them as such, but why should we tax other poor working men to pay exorbitant prices to them. Hoping I have not intruded too much on your valuable space.

I remain, respectfully yours,

H. COLLINS.

Calgary, November 9th 1888.  
[So far as Councillor Collins' suspicion that there is any conspiracy among the printers to bleed the town, is concerned, it is scarcely necessary to remark that such is by no means the case. The fact that the rates which Councillor Collins objects to would be considered low even in the East, shows that the town is not being made the victim of a printers' combine. As a matter of fact the people of Calgary get their printing done at very low rates, too low in fact. The printing offices have to pay their printers higher than in any town in Eastern Canada, and have to pay high rates of freight on all the paper and material they use. Nevertheless printing and advertising are as cheap here as they are anywhere in Canada. It is absurd then, to accuse the printers of charging exorbitant rates.]

It appears a little unfair to accuse our contemporary the Tribune of running up a bill for printing "which never had been ordered." The advertisement about which this dispute has arisen, was one inserted in both Calgary papers by Mayor Shelton. It was published in good faith and the papers have every right to collect the amount of their accounts. Editor HERALD.]

## THE WEEK'S LOCAL NEWS

Wednesday.

The date of the ball to be given by the N. W. M. P. Lodge, I. O. O. F., has been fixed for the 28th inst.

Captain Goodwyn, who returned from Duluth with his family this week, has rented Mr. Yariet's house next to the fire hall, lately occupied by Mr. G. C. King, and is having it furnished in first class style and will occupy it immediately.

The annual meeting of the ratepayers of L. combe separate school was held yesterday, when Rev. Father Leduc and Mr. Wm. Costello were elected trustees in place of Messrs. O'Keefe and Mignolon, who resigned on account of leaving town. The affairs of the school are in good shape. During the present quarter there have been sixty pupils in attendance and there are 101 on the roll.

Mr. James McKenzie, of Calgary, is home again from Battleford where he went some week ago to build a Government bridge across the Battle River. This will be a large bridge similar to Langevin bridge at Calgary. The work of building this fall has to be abandoned for want of timber, which has to be floated down the river. The water is now so low that the contractor has been obliged to haul the timber up on the bank and leave it for high water in the spring.

Friday.

Mr. Pierce, mine inspector, of Calgary, is in town.—Winnipeg Free Press 6th.

A pocket book has been found and given to the chief of police, containing a small sum of money and some receipts. The owner can have the same by applying to the chief and proving property.

The enterprising firm of Carson & Riley has been dissolved. Mr. Carson continues the business, and Mr. Riley leaves town, taking with him the best wishes of hosts of friends, and a well lined pocket book to boot.

Saturday.

Inspector Williams, of the N. W. M. P., came in on No. 1 express this morning from the east.

The Rev. J. F. Betts returned home from Regina this morning and will officiate in his church tomorrow.

The amount of travel just now by the C. P. R. may be judged by the fact that there were 50 pieces of baggage put off the west bound train at Calgary this morning.

Mr. H. D. Johnson, Architect, of Calgary, we are informed, has been appointed to the office of superintendent of Dominion Public Works in Calgary.

The ladies committee in connection with the thanksgiving dinner to be given on the evening of the 15th inst., in the Royal Opera House, are meeting with great success in selling tickets. It promises to be one of the best entertainments ever given in Calgary.

One of the finest specimens of the coyote species we have ever seen in the west was shot by Mr. Wm. James on Thursday at his brother's farm twenty miles from Calgary and brought into town by him. It weighs forty pounds. Naturalists in the east would prize it very much if properly preserved.

Monday.

A special thanksgiving service will be held in the Church of the Redeemer.

D. W. Davis, M. P., arrived in town on Saturday and registered at the Royal Hotel.

Inspector J. O. Blake, of the N. W. M. P., arrived from Regina by this morning's express.

The number of pupils registered at the Central School last week was 139, and the daily average was 122.

Peter M. Barker, of Regina, inspector of registry offices for the western territories of Canada, is in town.

The C. P. R. express trains commenced running on their new time table. The west bound train now arriving at Calgary 1:10 a.m., and the east bound at 3:25 a.m.

Sergeant Clark, of the N. W. M. P., who had made many friends while stationed in Calgary, left this morning for Lethbridge, to which post he has been assigned on duty.

C. A. Biggar, C. E., D. L. S., of Ottawa, is registered at the Royal Hotel. He has just returned from St. Mary's River, where he has been prosecuting government work for some months.

Mr. J. S. Lee and family, who has been for a long time employed in Mr. W. H. Cushing's factory, left this morning for Florida to spend the winter. Mr. Lee will doubtless return to Calgary before the "Yellow Jack" returns to that fever stricken country next spring.

Thirty-one young English women passed through Calgary on No. 1 express to California. They are all trained nurses having had a thorough schooling in hospital work at home. The young ladies were accompanied by the C. P. R. general passenger agents.

The thanksgiving service at the Methodist Church will be held on

Wednesday evening in connection with the weekly prayer meeting, instead of Thursday evening as announced. The collection will be devoted to the hospital fund.

Lieut.-Col. Herchmer, Assistant Commissioner of the N. W. M. P., leaves for Battleford tonight. While in the Saskatchewan District Col. Herchmer will inspect the post at Battleford and all its outposts, of which the most westerly is Onion Lake. The Colonel will also probably inspect the post at Prince Albert before he returns.

Tuesday.

Inspector Horner, of the N. W. M. P., of Banff post, is registered at the Royal.

Mr. D. M. Blackwood, of Winnipeg, arrived by this morning's train and is stopping at the Royal Hotel.

Mr. John Martin, of the firm of Martin Brothers started by No. 1 express this morning for Vancouver.

Constable Lyons, of the Northwest Mounted Police, is reported, deserted from the Calgary barracks last night.

Judge Wetmore, of the Northwest Supreme Court and Mrs. Wetmore are in town and registered at the Royal Hotel.

The Misses Tough, of the Rossin House, went east by No. 2 express this morning, it is understood on a trip to Winnipeg.

The express trains this morning both from the east and west were a little late, delay being caused by the fall of snow in the mountains and down east.

A largely signed requisition calling upon Mr. D. W. Marsh to accept the nomination for the mayoralty is being circulated. Mr. George Murdoch is the only other candidate spoken of as yet.

DIED.

WINTERBOTTOM.—On the 2nd Oct., on the voyage to England, where he was going for the benefit of his health, Edwin John Winterbottom, M. R. C. S. E., L. D. C., of 1, George Street, near Calgary, late of Elmleigh Square, St. James, London, Eng.
